A Little Retail Therapy

Our ladies enjoyed a lovely day out for some well-deserved retail therapy. They headed to the shopping centre, where they enjoyed browsing the shops, picking up a few treats and spending time together.

After some shopping, they stopped for a delicious lunch at the café before making their way home.

It was a lovely day filled with smiles, laughter and good company, creating plenty of happy memories along the way - and, of course, a few shopping bags to bring home!

Making Memories Together

At Weald Hall, we believe some of the best moments are the simplest ones - sharing laughter, enjoying music, having a dance, being a little silly and simply enjoying each other's company.

Whether we're enjoying a lively afternoon in the home or heading out into the local community, our residents are always at the heart of what we do. We love creating opportunities to smile, have fun and make wonderful memories together, because every day is an opportunity to enjoy the good times and share them with one another.

A Special Visit from Molly

We are always delighted when Molly, the wonderful therapy dog, comes to visit. It is lovely to see how quickly everyone's faces light up when Molly walks through the door!

Her visits bring so much warmth and happiness to the home, whether residents are enjoying a cuddle, giving her a fuss or simply watching her potter around. Therapy animals can provide wonderful opportunities for companionship, comfort and connection, helping to create a calm and uplifting atmosphere.

Molly's visits also give everyone the perfect excuse for a good old catch-up! Alongside Molly, Jayne takes the time to sit and chat with our residents, sharing conversations, stories and plenty of laughs.

It's these simple moments of companionship, connection and a little bit of four-legged joy that make Molly's visits so special - and we always look forward to welcoming her back!
